Car Park and Road Closures

As part of the ongoing construction works beside Agnes Blackadder Hall and University Hall, University Contractor, Sir Robert McAlpine, will be erecting tower cranes over the coming weekends.

Access to the Agnes Blackadder car park will be closed off from 7.00 am to 7.00 pm on Saturday 28th & Sunday 29th October. If access to vehicles is required during these hours over the weekend, these should be moved before 7.00 am on Saturday 28th, to other car parks in the North Haugh.

Access to St Leonard’s Road will be restricted over Saturday 4th & Sunday 5th November, with no vehicle access through to the Sports Centre. A traffic management system will be put in place, with diversion signs installed directing Sports Centre vehicle traffic to the North Haugh. Pedestrian and cycle access will not be affected during these works.

School of Chemistry Colloquia

Synthesis Seminar
Monday 23rd, 1.00 pm, Lecture Theatre B
Professor Samir Zard (Director of Research CRNS, Laboratoire de Synthese Organique, Universite Paris-Saclay) – Reversible Reservoirs for Radicals. A Powerful Strategy for the Creation of Carbon-Carbon Bonds

EaStCHEM Colloquium
Wednesday 25th, 3.30 pm, Lecture Theatre C
Dr Yoann Olivier (Mons) – On the Nature of the Singlet and Triplet Excitations Mediating Thermally Activated Delayed Fluorescence

New Faces

Shiv Kumar comes from India and obtained a BSc at the University of Delhi, followed by a PhD at the Indian Institute of Science, Bangalore. He then carried out postdoctoral work at the IIT, Kanpur, before taking up a Marie-Curie Fellowship here with EZC in July. He is interested in travel, reading, badminton, cycling and driving.
New Faces (continued)

Graeme Copley comes from Yorkshire and completed MChem and PhD degrees at the University of Newcastle. He then did postdoctoral work at both Arizona State University and Kyoto University, before coming here in April to work with EZC. He is interested in hiking and cooking.
