

School of Chemistry

Aims and Objectives: Session 2022-2023

Module CH4442: Chemistry Research Project

Course Title: Chemistry Research Project

Duration: 28.5 hours/week

Staff Involved: All Staff (Module Convenor: Dr R. Schaub).

Aims: To give the student the experience of working in a research environment and the opportunity to develop a range of skills.

Objectives:

On successful completion of the module the student will have developed skills in the following areas:

- 1 Design of experiments.
2. Experimental techniques.
3. Problem solving through abstraction, evaluation and interpretation of experimental data.
4. Searching the chemical and related literature.
5. Communication of results in an oral presentation and in a dissertation.
